REGULATORY CHANGE

Delivering the Right Talent to Banks and Broker-Dealer Firms

Managing change in your business in an increasingly complex market is unsustainable without high-quality, skilled specialists and a modern approach.

We believe financial institutions have traditionally been underserved by technology and overwhelmed with commodity resources that don't effectively deliver the return on their investment.

Vox Consulting combines global banking and regulatory experience, well-trained consultants, and advanced technology to help global financial institutions plan, staff and deliver major change projects.

Who We Serve

Our primary clients are banks that are continuing to invest in G20 regulatory change and related business and technology change. Vox consultants address short to medium-term resourcing needs in front office business change teams, IT and operations.

We Solve Three Critical Problems For Banks And Broker-Dealer Firms

REGULATORY COMPLEXITY

The regulatory environment is more complex than ever, challenging banks to manage change projects efficiently.

COST EFFICIENCY

Recruitment can be a full-time job for banks and finding a few good resources can take months of effort at considerable cost.

TALENT UTILIZATION

The senior end of the market is better served but capable junior resources are hard to find.

Track Record

We have vast experience on regulatory and business change management projects and have consultants placed at tier one banks in New York, London, Dublin and Belfast.

Projects

Modern Approach Unique Skillset

Vox is a consulting organization built on a pipeline model for both junior and experienced staff

Talent Pool

Our primary clients are banks that are continuing to invest in G20 regulatory change and related business and technology change. Vox consultants address short to medium-term resourcing needs in front office business change teams, IT and operations.

Valuable Experience

Vox has a proven model for finding experienced staff using our established associate pool in combination with our extensive professional networks.

Critical Support

We seek out bright and talented early-career graduates from universities in Northern Ireland and the Irish Republic, then train them locally prior to assignments on client sites or at our Belfast head office.

Vox combines global banking and regulatory experience, innovative data solutions, and skilled specialists to help global financial institutions plan, resource, and deliver regulatory and business change projects.
